BHAVNA PATIL

Senior Full Stack Developer | Node.js · React · TypeScript

Surat, Gujarat, India | +91 99982 07571 | patilbhavna96@gmail.com | linkedin.com/in/bhavna96

PROFESSIONAL SUMMARY

Senior Full Stack Developer with 8+ years of experience building and delivering scalable web applications using React, Next.js, Node.js, TypeScript and PostgreSQL. Experienced in leading projects end to end, from requirements and architecture to release, including Microsoft Teams enterprise apps, payroll/HRIS integrations and AI-assisted data processing. Comfortable working directly with clients, mentoring developers and delivering in Agile teams.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, Redux / Redux Toolkit, redux-saga, React Query, Fluent UI, Material-UI, Vite, Webpack

Backend: Node.js, Express.js, REST APIs, Prisma, Sequelize, Drizzle ORM, node-cron, Winston logging

Databases: PostgreSQL, MySQL, MongoDB

Cloud & Integrations: AWS S3, SFTP, Microsoft Teams SDK, Microsoft Graph, Azure AD, Azure Bot Framework, Finch HRIS API, OpenAI API

Auth & Security: Auth0, JWT (RS256), OAuth 2.0, M2M auth, encryption of third-party tokens

Testing & Tools: Jest, Mocha, Selenium, Git, CI/CD, Jira, Trello, monday.com, Storyblok CMS

Other: Agile/Scrum, Project Leadership, Client Communication, Team Mentoring, SEO

PROFESSIONAL EXPERIENCE

Datanova — Dec 2024 – Present

Senior Full Stack Developer / Project Lead

Workproud – Microsoft Teams Enterprise App

- Led end-to-end delivery of a Microsoft Teams tab app for workplace engagement: posts, channels, comments, recognition/awards, profiles, sharing and notifications.
- Built a multi-tenant Teams + Azure AD application integrated with Microsoft Graph and an Azure Bot Framework messaging endpoint.
- Developed the Node.js/Express API with Sequelize and PostgreSQL, including secure session storage and structured logging (Winston).
- Built the React client with Redux Toolkit, redux-saga and React Query; managed Teams app packaging (manifest, Dev Portal) and local dev setup.

Tech: *TypeScript, React, Fluent UI, Teams JS SDK, Node.js, Express, Sequelize, PostgreSQL, Microsoft Graph, Bot Framework*

WC Administrator – Payroll Admin Platform (Finch HRIS)

- Led backend and frontend delivery of a payroll admin platform connecting employer HR/payroll systems through Finch APIs.
- Designed REST APIs with Node.js, Express and TypeScript, using PostgreSQL and Prisma for payroll jobs, deductions and migrations.
- Built scheduled payroll processing (node-cron) for period and YTD runs, with Excel report generation stored securely in AWS S3.
- Secured APIs with Auth0 JWT (RS256), encrypted third-party access tokens at rest and handled token expiry automatically.
- Built the React + Vite admin UI for customer onboarding, payroll runs and deductions.

Tech: *Node.js, Express, TypeScript, Prisma, PostgreSQL, React, Vite, Auth0, AWS S3, Finch API*

Champions Health – Multi-Vendor Payroll Integration System

- Led delivery of a platform connecting 10+ payroll providers to one unified API and admin experience.
- Designed a provider abstraction (factory pattern, one module per provider) supporting multiple OAuth and credential models.

- Introduced AI-assisted deduction and tax code classification using OpenAI, with fallbacks and customer-specific overrides for accurate exports.
- Built export pipelines (Excel/CSV) with delivery to AWS S3 and SFTP; set up Auth0/JWT/M2M auth, structured logs and quality gates.

Tech: *Next.js, TypeScript, PostgreSQL, Drizzle ORM, Auth0, OAuth 2.0, OpenAI API, AWS S3, SFTP*

GP – HelixOS & Helix360 | *Current*

- Currently working on the HelixOS and Helix360 platforms as a full stack developer.

Lanet Team Software Solutions, Surat **Jun 2018 – Oct 2024**

Senior Software Developer

- Built and deployed scalable web applications with React.js, Next.js, Node.js and Express across the full project lifecycle.
- Handled client communication, gathered requirements and delivered solutions aligned with business goals.
- Mentored and managed development teams; ran Agile sprints using Jira and Trello for on-time delivery.
- Wrote automated unit and functional tests using Jest, Mocha and Selenium for stable releases.
- Applied SEO best practices to improve website visibility, traffic and search rankings.

Key Projects

- **Match My Makeup:** Next.js, React, Node.js and Material-UI platform with affiliate API product recommendations and SEO optimisation (May 2021 – Sep 2024).
- **RevMaxAI:** Medical document management platform for affiliates and payors, with claims management, comparison tools and audits of patient and policy data (Jun 2024 – Aug 2024).
- **SalesQuoter:** Selenium automation for a custom door ordering system, validating price calculations across user-selected options (Apr 2019 – Apr 2020).
- **SideCar Learning:** Online learning platform built with React, Redux and Bootstrap, with role management for Admin, Creator and Tutor (Aug 2018 – Mar 2019).

EDUCATION

M.Sc. (Information & Communication Technology) **2016 – 2018**

Veer Narmad South Gujarat University | CGPA: 8.03

Bachelor of Computer Applications (BCA) **2013 – 2016**

Veer Narmad South Gujarat University | CGPA: 9.61

ACHIEVEMENTS

- Won 7 prizes (1st and 2nd) in inter-college IT competitions (2015–2017), including 1st Prize at Impetus 2016 ‘NET Rising’ and 1st Prize at Pratibha Parv 2015 & 2016 ‘Mind Stormers’.
